

NEW

LED Fixture Breather
 Applications: Outdoor Post or vertical Mounted Applications

Fixture Breather:	Aluminum 2-piece construction
Features:	O-ring seal
Benefits:	Allows fixture to breath by letting air pass through slits on side.
	Helps dissipate heat out of fixture
	Helps components last longer
Typical Mounting Height:	any
Warranty:	5 years from date of sale
Weight & Dimensions:	3/4 " W and 3/4 " mounted height WITH 1/2" NPT threads

Installation:

Breather is 1/2 inch NPT and most outdoor fixtures have 1/2 inch NPT threaded holes with blanks in them. Remove blank and screw in breather. An approximate 3/4 inch hole can be drilled and tapped or a lock ring can secure the breather. All Bravolight products are certified CE & RoHS.
